EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. (CSE)	Karunya Institute of Technology and Sciences, Coimbatore	8.01	2023-2027
Senior Secondary	CBSE Board	76.8%	2023
Secondary	CBSE Board	78.4%	2021

EXPERIENCE

- **ProPlusLogics - Flutter Intern** Mar. 2023 - Apr. 2023
Coimbatore, India
 - Developed key user interface components in Flutter for a Doctor Appointment mobile application, focusing on intuitive design and user experience.
 - Designed and implemented the user registration and appointment scheduling screens for a Doctor Appointment app using Flutter, adhering to project specifications and deadlines.
- **Karunya University - Full Stack Developer Intern** May. 2025 - Aug. 2025
Coimbatore, India
 - Developed KAAS (Karunya Academic Automation System), a full-stack academic automation platform for faculty workflows, attainment calculations, and report generation.

PROJECTS

- **KAAS - Academic automation and reporting platform** May. 2025 - Aug. 2025
ReactJS, TypeScript, TailwindCSS, ExpressJS, Prisma, PostgreSQL, Docker Github
 - Built a faculty-facing academic automation system for course workflows, CIE/SEE/CES processing, CO/PO/PSO attainment calculations, and structured academic reports.
- **BattleTurtle - Competitive programming and judging platform** Feb. 2025 - Apr. 2025
ReactJS, TypeScript, TailwindCSS, NodeJS, ExpressJS, Prisma, PostgreSQL, Docker Github
 - Developed a competitive programming platform for coding contests, hackathons, and programming challenges with contest, problem, team, and submission workflows.
 - Built automated judging through a secure Docker-based sandbox, with real-time scoreboard updates, JWT authentication, and a React/Vite participant interface.
- **Fabort - Cloud-native application deployment platform** 2025 - Present
Rust, Axum, Tokio, ScyllaDB, Kubernetes, Docker, ReactJS, TanStack Start Live Url | Github
 - Built a multi-service platform workspace with tenant and admin Rust APIs, ScyllaDB migrations, RustFS object storage, and Studio/Operator web frontends.
 - Implemented platform workflows across authentication, workspaces, container engine, databases, game engine, secrets, audit logs, telemetry, and Kubernetes deployment automation.

TECHNICAL SKILLS

- **Programming:** TypeScript, Flutter/Dart, Rust, Python, SQL
- **DevOps & Tools:** Docker, VPS, DNS, Kubernetes, Git/GitHub, Linux, VS Code/Zed
- **System Design:** API design, distributed systems, cloud architecture, deployment planning
- **Libraries/Frameworks:** ExpressJS, PrismaJS, Tokio, Axum, TanStack Start, TailwindCSS, ReactJS
- **Databases:** Postgres, MongoDB, Firestore, ScyllaDB, Redis/Valkey, SQLite

POSITIONS OF RESPONSIBILITY

- **Coordinator,** K-Hacks Web and App Dev Club, KITS Dec. 2024 - Mar. 2025
- **President,** IEEE Computer Society, KITS Aug. 2025 - Nov. 2025

ACHIEVEMENTS

- **Secured Best Competitor Award** Cyberfest, Tamil Nadu. 2020

CERTIFICATIONS

- Microsoft Certified: Azure Data Fundamentals
 - Infosys Certification on Java Programming Fundamentals
 - NPTEL Certification on Advanced Distributed Systems
 - NPTEL Certification on Cloud Computing
-

Issued Sep. 2025
